Subject: Recommendation Letter- Elissa Harik

To whom it may concern,

Elissa Harik was supported by Tri-pulley NGO under the SEE-Change project that is funded by the Madad Fund of the European Union. As a participant in our program, she worked for 6 months at “Father Andeweg Institute for the Deaf- FAID” as a photographer to cover their events and activities and work on their brochures.

Elissa is a person with a disability who is capable of working autonomously and clearly communicating with others. In addition to being a talented photographer, Elissa is a professional swimmer proudly representing Lebanon and winning several championships over the past x years.

Throughout her work at FAID, she delivered the requested tasks with professionalism and treated everyone with utmost respect. As our model provides the job for a period of 6 months only, Elissa is now continuing with her on-the-job photography training sessions with an expert, and volunteering at SESOBEL, where she started off as a student, helping them with photography and designing greeting cards.

Knowing that you might sometimes contract photography freelancers to cover your events and activities, we highly recommend that you consider Elissa for such a job. Your collaboration with Elissa not only contributes to the job inclusion of such a talented artist but also paves the way for other partners to follow suit in providing similar opportunities for people with disabilities. .

Here the Instagram link where you can find Elissa’s work:
